VIRTUAL CAREERS FESTIVAL

#PavingTheWay

"I've just listened in on a few of the videos - how fantastic!! Great to get employees who have been to the local schools too and what a result to get the BBC journalist - great to listen to his advice and so engaging. All of the ones I have watched have been so interesting; insightful and encouraging. These will also be such a great resource to use and direct students to as I go through individual careers interviews and careers lessons. I can signpost students, parents and staff! I'm also planning to update the careers page of our website after half term so I will include the link to videos. Well done to you all, it's brilliant!"

VIRTUAL CAREERS FESTIVAL

#PavingTheWay

"Thank you everyone who has been involved in the virtual Careers Festival. It has been amazing!"

Rosie Morris, Birchwood

"A massive thank you from everyone at Helsby High School!"

J Callaghan

"I would like to say a big thank you, what a wonderful event pulled together in such a short period of time, from all the pupils and staff at St Thomas More, Crewe"

Student answers coming in on our feedback form....

Following the festival I will...

Applied to volunteer for a mental health charity

consider other STEM careers

research into my job I want to do and learn the subjects I have chosen to get a good head start

research universities and courses

I am going to start updating my CV and writing my personal statement

Get my dream job

improve my people skills

Look for blacksmith colleges and apprenticeship

i am going to consider different carer paths that have something to do with sport and play rugby for fun rather than having my mind set i am going to be open to new ideas.

Start collecting data for a CV

start developing my cv

Look at university websites and look at their reading lists.

start to form my cv

DofE

Improve my CV

Look for an apprenticeship job for when I finish high school.

Research even more into the fields I am interested in (Maths, Physics and Chemistry)

Be more serious about my future career

Look into alternative work experience opportunities.

I will take more time to look into possible career paths for myself and research the different jobs I already knew about.

learn more about what I want to do
