

Dear future year 7s,

I am writing this letter to reassure you. Due to covid-19 things are different right now and I imagine this is awfully hard for you. When you come to Middlewich high school, do not be worried as everyone will take good care for you.

When I started Middlewich last year, I was worried about my first few days because it was a new school, there was people a lot older than me and I did not want to get lost. When you start, if there are any concerns you can talk to your form tutor, prefect buddies or anyone you feel comfortable with.

A tip that helped me at the beginning was to talk to people if I was unsure about where I was going. When you start your proper lessons, you will have to find which room you are going to. Do not worry about remembering as you will be given a timetable to follow from. Some of your primary schools will be a lot smaller than this (mine was) but I assure you that as the days go on you will get to know where everything is.

When I started, another worry on my mind was friendships. I did not really know how to make new friends, so what I did was stick around with my primary friends. But I knew I had to come out of my comfort zone a little at some point. So, when I was ready, I decided to introduce myself to some people and now I am close friends with them. I am not really an expert on making friends, but the best tip is to just talk because when you are down or someone else is feeling down you can talk to somebody about it.

This is the drama studio. Now people go here for drama, music, pack lunch and wet break and lunch times. Sometimes year group assemblies are here. Outside is the year 7 yard where you can hang out, there is also a gate where you can go home from. As well as that, there is the computer science room, geography, and other music room.

This is the library. Here you can go to read, at break and lunch times. On the other side is the info tech room. On the sides are the maths and English departments, language departments are in the corridor opposite the library, and the history departments are on the left of the info tech room.

On the right side of info tech, if you go down that corridor the toilets are at the end. Then if you go outside you can find the science departments, r.e. room and the food tech room. If you carry on walking you can find the art departments and design and technology. As well as that there is the canteen where you can go to get snack and dinner but as well there is a blue box and they serve food as well. Finally, you have the p.e. department.

I hope this letter finds you well and gets rid of a couple of them worries. Be safe and stay safe.

Evie Kelly.
