

To all Year 6's and new year 7's.

Welcome to Middlewich Highschool. This time last year I was in the same position as most of you. Moving from primary to high school.

In my first few days at Middlewich Highschool I did not know what to expect. I hope this short letter can help you in your move between schools.

In my first week I was made welcome by all the teachers at the school. They were helpful whenever I did not know how to get to a class or who someone was. In our first days the teachers told us where everything we needed was and where to go if we needed help.

Not all my friends from primary school moved to Middlewich Highschool though. And out of those that did move up, only a few are in my form. This does not matter, the teachers will help you make new friends, even if you are shy.

Remember, do not be afraid to ask people for help. Nobody will judge you. We all get confused sometimes, but with all these teachers around, your questions will be answered.

School is not just a place for us to learn, but it is a place for us to make friends and socialise, something that hasn't been that easy throughout this year.

Here is a little map to help you find your way around the school.

I hope you enjoy
your time at
Middlewich
Highschool

Tom Smelt, 7R
